Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Sunday 21 Feb 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Brighter and less windy for many, but some exceptions.

Today:
Mostly bright across some southeastern and northern areas, while central and southwestern England and southeast Wales are cloudier with rain and drizzle. Parts of northwest UK windy with sunny intervals and showers. Mild, very mild in southeast, mostly less windy.

Tonight:
Patchy rain and drizzle England and southeast Wales. Drier in southeast and northern areas, a few fog patches and a touch of frost in north. Showery and windy in northwest.

Monday:
Rain in southern UK edging east and fading. Brighter in north after any fog clears, though the northwest stays showery and breezy. Mild for most, especially in southeast corner.

Outlook for Tuesday to Thursday:
Windy with rain then showers in the north and west. Drier with some sunshine in the south and east. Mild, especially so in the southeast.
